

## ENM • ENT

### BI-DIRECTIONAL FLOW

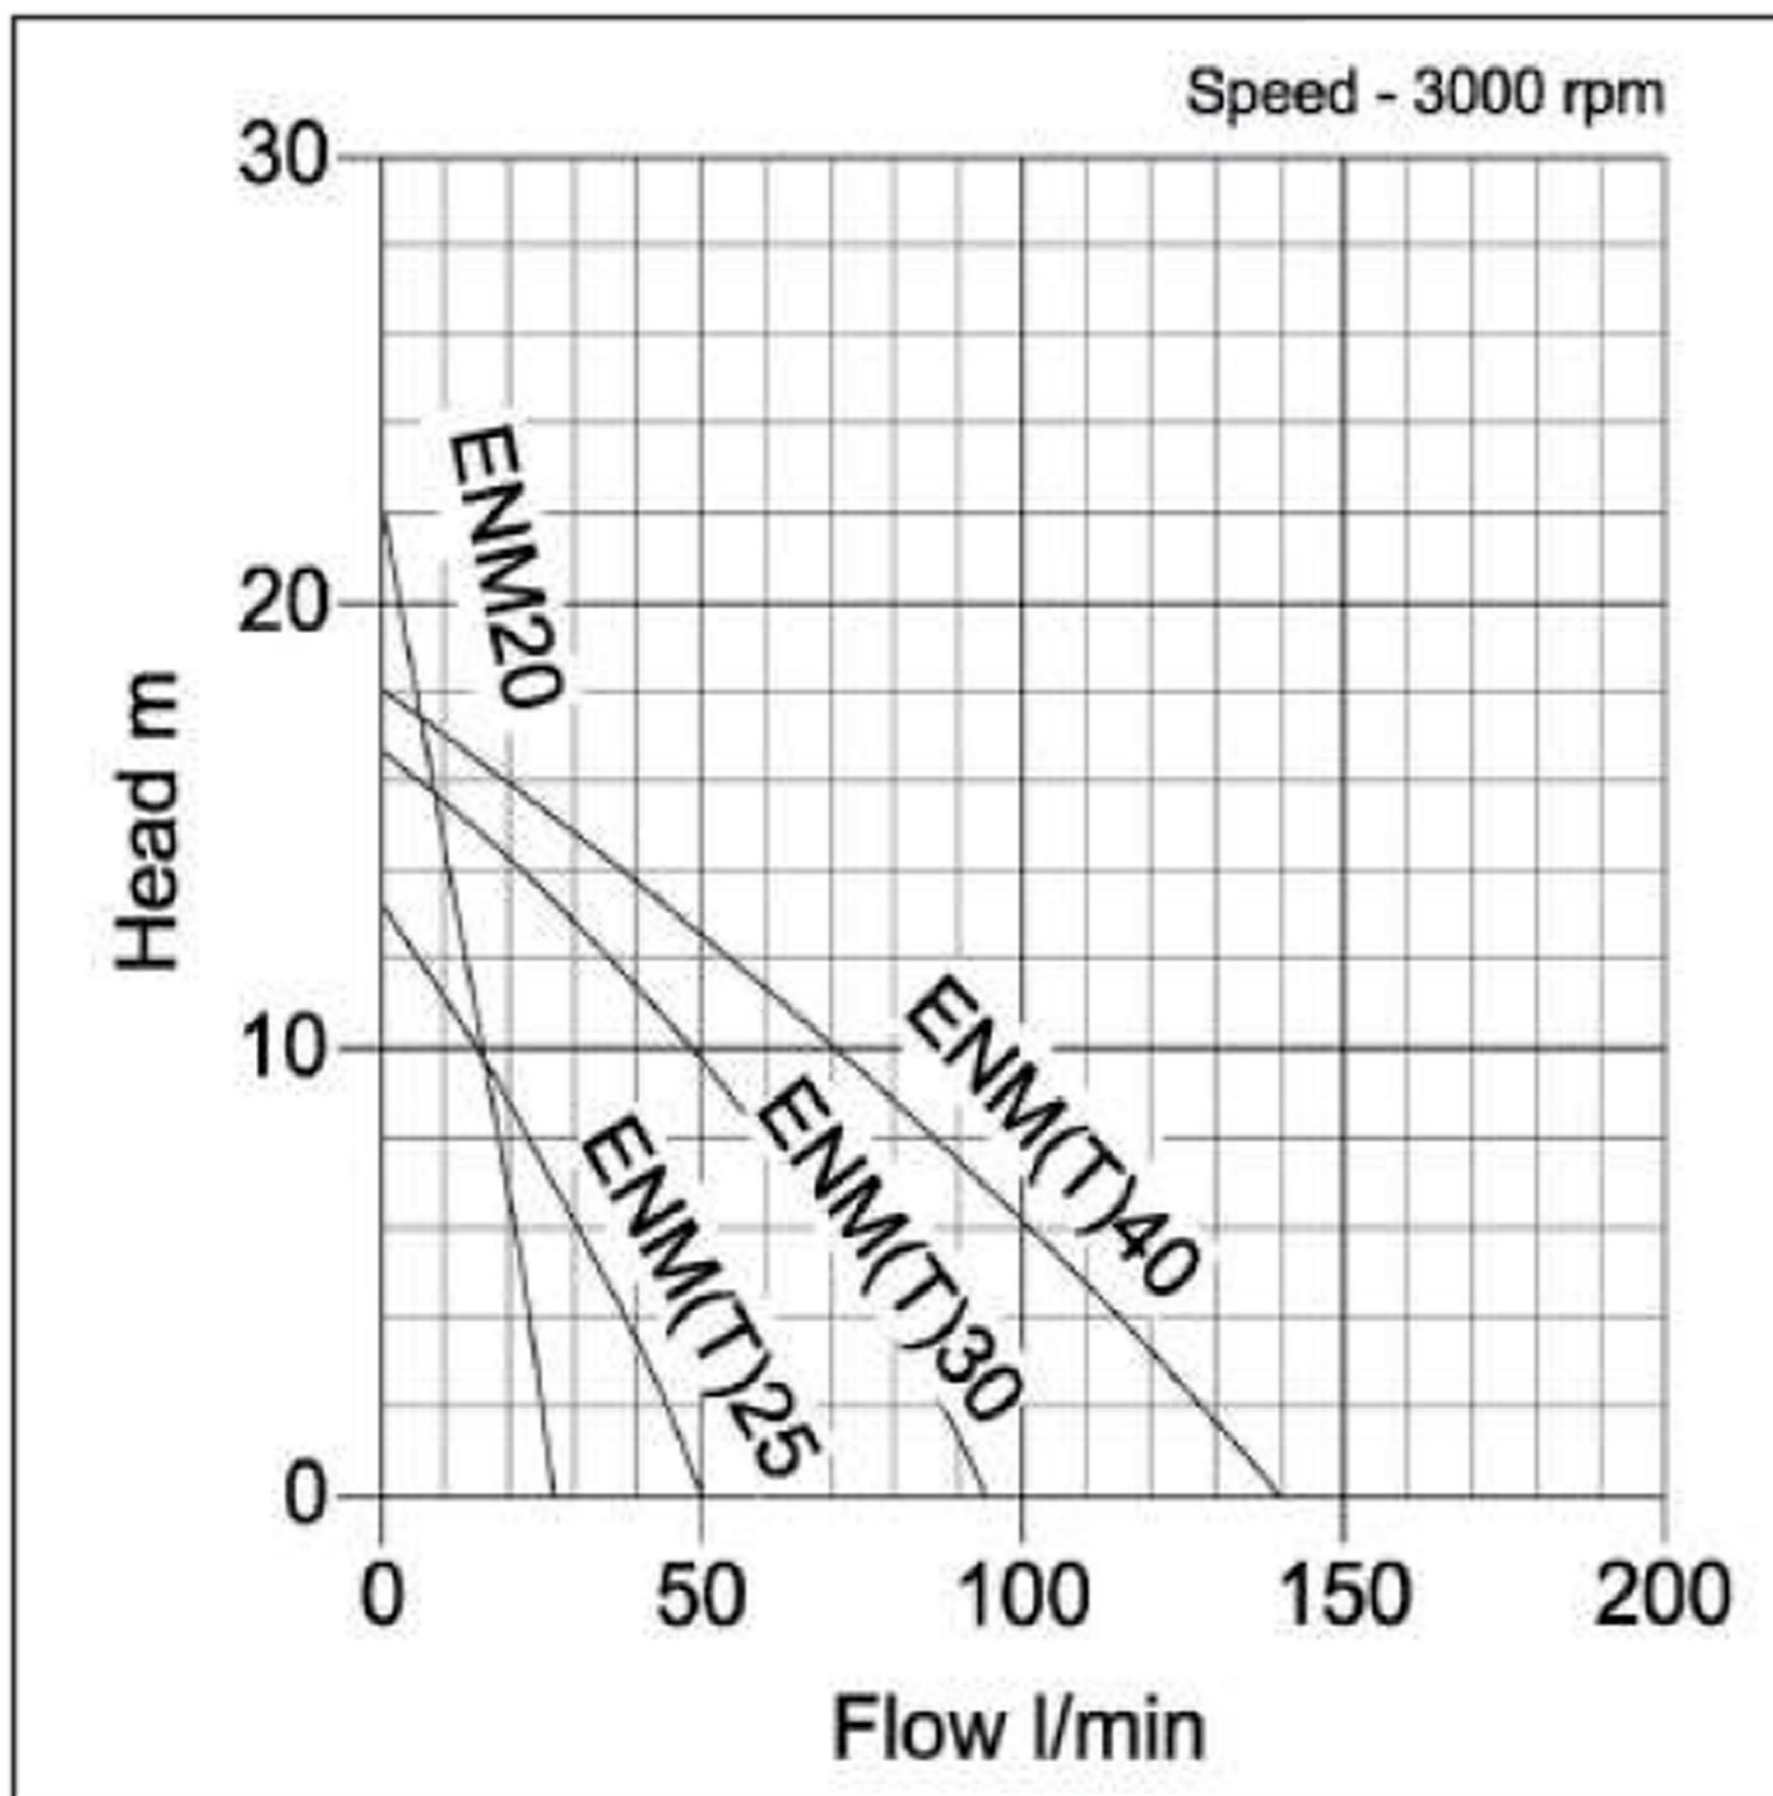

ENM and ENT pumps are general purpose, portable self-priming pumps for circulating and transfer of water, sea-water, juices, diesels, transformer oil and mild chemicals\*. They must not pump petrol, solvents or any other liquid with a low flash point. They have a forward and reverse switch for filling and emptying applications. All models are supplied free-standing, but a full frame is available as an optional extra for ease of handling and added protection.

\*We strongly recommend that you provide our sales department with written details of your application so that the correct selection can be made.

**Operating Conditions:** Continuous duty | Max. ambient temp: 40°C | Max. suction lift (+ footvalve): 6 mtrs

**Fluid:** Clean water | Seawater | Chemicals | Oils | Temperature: 0 - 90°C

**Application:** Industry | Hire Fleets | Diesels | Seawater | Chemicals | Light oils
